

Welcome & enter with a happy heart

Our reception area has also gotten an upgrade with the addition of hanging baskets & large plants. This has made the environment more tranquil & exciting to come into.

Enriching Happiness
After our first care home visit being such a success & the children continuously asking when we are going back, we can confirm we will most definitely be going back on a bi-weekly basis for more fun with bubbles, singing songs & playing games.

The outdoor setting has been given a great upgrade & now has more defined areas. This has allowed the practitioners to set up more good quality activities that the children love to interact with!

WOW Moments

at Ecclesfield Nursery

A brush of perfection:
The up & coming best board competition has got all the girls excited about doing up their boards. This has resulted in beautiful boards in the environment adding colours and aesthetically pleasing hanging flowers and twinkling lights.

Our Eager Beavers
are starting Music therapy sessions on Fridays! This will encourage holistic development for babies including language skills & social interactions as well as having lots of fun with flashing lights, music & songs.

Hedge your way into beautiful scenery
With all our current updates to the rooms we have also added a hedge wall, this is eye catching & gives the room the effect of walking into a jungle environment. The children really love to look at this & it has created an encouraging & calming space.

D.I.S.C.O:
We are starting Disco Yoga for the Busy Bees and Wise Owls on Tuesday and Fridays weekly and are excited to see how the children enjoy this.

The Boys & Girls in Blue are always here for you:
We were very lucky to have Chelsea (Ezra & Ember's mum) come to visit us with her police car. The children loved looking at the car, hearing all the sounds & seeing the flashing lights. This opened up opportunities for conversations about people who help us in the community & how we keep ourselves safe.

We previously held a parent drop in. This offered an opportunity for all parents to an open session into the environment. Here they met with the staff & saw the children in their learning environment. The children loved showing off all the nursery, having the opportunity to play with their parent/guardian in their rooms & introducing them to their teachers.

Hop into it!
The children were very excited to find a frog hopping along in the garden !! This led to the children's interests coming to frogs & conversations sparking around their life cycle.
